# INTRODUCTION

---

The EURO CHARGER II, Model 091-117-xx is a compact , completely automatic dual channel battery charger designed specifically for the fire service and emergency vehicles. The voltage of each battery is individually controlled so that each battery is charged only as much as required. Once the batteries are fully charged, current stops flowing to guard against overcharging and water boil-off. Of rugged construction, the charger is made to withstand the shock and vibration encountered in vehicle mounted equipment. Utilizing components which meet international safety requirements makes this charger ideal for worldwide applications.

# BATTERY CHARGER FEATURES

---

- Completely automatic operation, charges battery on demand
- Input voltage, switch selectable, 115 volt or 230 volts
- Output voltage regulated, eliminates overcharging battery
- Output, current limited to protect charger from overloading
- Optional charge indicators

# INSTALLATION

---

- The EURO CHARGER II automatic battery charger should be installed in an area with adequate ventilation.
- Mount the charger using the four holes provided.
- Connect the wiring from the batteries to the output terminal strip
- Double check battery wiring. Verify that the battery voltage appears at charger output terminals.
- Set the voltage selector to either the 115 volt or 230 volt position to match the input source available.
- Connect the input power to the input power terminal strip and energize charger.
- Verify that power indicator is illuminated and charger is charging.

# INSTALLATION WIRING DIAGRAM

115 or 230 voltage selector switch.

**NOTE:**  
Do not apply 230 volts to the charger with the selector switch in the 115 volt position serious damage may result

**IMPORTANT:** Charger output wire size is 14 awg. Wire size is for a maximum length of 20 feet. If wiring is to be longer, larger wiring is required. Additional information is available on request.

# SPECIFICATION & OUTLINE

---

## SPECIFICATIONS:

**Input:** see chart

**Output:** see chart

**Output Current:** see chart

**Charge Indicator:** 0-15 amps 5%

**Weight:** 11 lbs

Model #	Output Current	Output Voltage	Input Voltage	Input Current	Charge Indicator
091-117-12	12 Amps	12	230/115, 50/60 Hz	1.3/2.6 Amps	15 amps
091-117-24	6 Amps	24	230/115, 50/60 Hz	1.3/2.6 Amps	8 amps
