

# AUTO CHARGE<sup>®</sup> 35/10

## SINGLE SYSTEM BATTERY CHARGER & POWER SUPPLY

**35 AMPS FOR CHARGING VEHICLE BATTERIES**

**BUILT-IN 10 AMP BATTERY SAVER**

**AUTOMATICALLY CHARGES BATTERY**

**REMOTE BAR GRAPH INDICATOR**

**DESIGNED SPECIFICALLY FOR VEHICLES WITH SINGLE BATTERY SYSTEMS**

**NO WATER BOIL OFF**

**3 YEAR WARRANTY**

### MODEL # 091-35/10

The Auto Charge 35/10 is a fully automatic battery charger with a very high output for vehicles with a single battery system. It is ruggedly constructed for mounting in the vehicle. A bar graph display is provided to indicate the state of charge of the battery.

A 10 ampere Battery Saver is provided to power rechargeable hand lights or other accessories. The Battery Saver automatically disconnects these accessory loads from the battery and powers them from an internal power supply. This removes the accessory loads from the battery during charging.

For "BATTERY SAVER" loads that do not tolerate ripple, please contact our engineering department for more information.

#### SPECIFICATIONS:

**Input:** 120 Vac, 50/60 Hz, 10 Amps Max

**Input Fuse:** 12 Amps, Fast Acting

**Output:** 12 Vdc, 35 Amps

**Battery Saver:** 12 Vdc, 10 Amps

**Output Fuse (Recommended):** 70 Amps

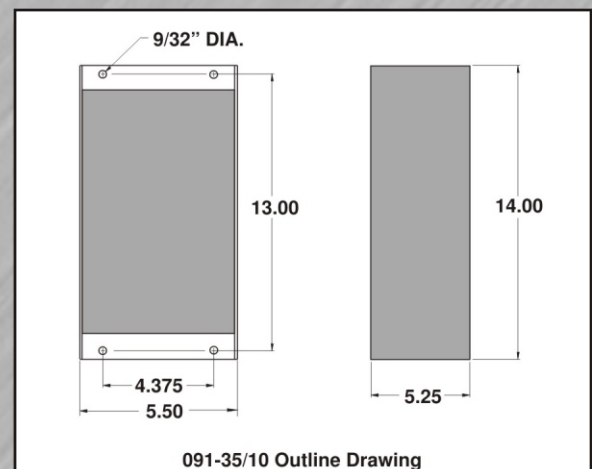

**Power Indicator:** Indicates Input Power Applied

**Battery Saver Overload Indicator:** Indicates Battery Saver Exceeded 10 Amps

**Charge Indicator:** Remote Bar Graph Display

**Weight:** 22 lbs

**Warranty:** 3 Years
