

Solar

Roof Mounted or Portable

Xantrex Solar options can help extend battery service life, keeping batteries topped off and providing power for smaller loads; meaning more available power for battery charging and running your electronic devices.

Key Features

- **Slows battery discharge** through continuous trickle charging
- **Extends battery service life**
- **Adds to available battery capacity** resulting in increased runtime of electronics and appliances
- **Reduces generator runtime** for battery charging and powering loads
- **Options in rigid or flexible panels**
- **Options in roof mounted or portable**

Roof Mounted Kits

- Available in rigid and flexible forms
- The premium SOLAR MAX panels offer up-to 180° of flexibility and 20% more efficiency in shaded and low light conditions
- All kits include a solar panel, 30A PWM charge controller, PV and battery cables and mounting hardware

Portable Kits

- Ideal for applications where it may be impractical to have a permanently mounted solar panel.
- Available in rigid and flexible forms
- All kits include a foldable solar panel with tilting legs, 10A PWM charge controller, adapter battery cables and a carrying case
